# Our turkey suppliers

Started in 1934 by Percy Alan, P A Mobbs & Sons is the family turkey business who supply our ever-popular turkeys at Christmas. Located in Cratfield, they are just 34 miles away. They have been growing free range turkeys in a traditional way for over eighty years. Although much has changed in farming over the decades Mobbs & Sons are proud to still grow and prepare the turkeys in the traditional way and mill their own turkey feed from the grain grown on their farm.

Mobbs & Sons have always reared their turkeys so that they know exactly what is going into them and can change their diet according to their needs, this makes them nearly unique today when most producers buy their feed ready made. This is a big reason we get our turkeys from them because it matches our Field to Fork concept.
